PROFILE

I develop responsive and user-centric web applications using clean, semantic, and maintainable code focusing on performance, scalability, and accessibility. I continuously expand my technical expertise to adopt modern technologies to build innovative solutions that deliver real value to users and businesses.

SKILLS

- HTML5, CSS3, SCSS
- Bootstrap, Material UI, Chakra UI
- CSS-in-JS
- ReactJS
- Redux, React Router, Redux Saga
- Basic SQL
- Strong Communication

EXPERIENCES

FRONT END ENGINEER

Alchemist Accelerator

2020 - 2026

San Francisco, California, USA

- I used Reactstrap, SCSS, Redux, Redux Saga and React Router to create components and implement features.
- I also utilized GitHub Copilot to generate boilerplate code and generate plan to ship features more efficiently.

ADVANCED CSS DEVELOPER

Point Hacks

2019 - 2020

Australia

- I handled front end tasks in a WordPress media website using PHP and I reduced their SCSS styles by 11%. I also fixed issues in VueJS apps integrated on the WordPress website.

APP DEVELOPER

Digital First

2019 - 2020

Australia

- I translated UI designs and implemented features of a web app using React, Material UI and Styled-Components.
- I also handled back end tasks, specifically creating AWS Lambda functions that execute MySQL queries in a Node.js codebase.

FRONT END DEVELOPER

SchoolApply

2018

Stockholm, Sweden

EDUCATION

WEB DEVELOPMENT

Free Code Camp, Udemy, Lynda.com
(now LinkedIn Learning)

FEU - INSTITUTE OF TECHNOLOGY

BS IT w/ Specialization in Web and
Mobile Applications Development
2013 - 2016
