Eirin Gonzales

Front End Software Engineer

Manila, Philippines • eiringonzales@gmail.com • https://eiringonzales.com

PROFILE

Front end engineer with 7+ years of work experience building fast, user-friendly React web applications for international startups. Expanding into full stack JavaScript with TypeScript, Next.js, Node.js/Express.js, Prisma, and MongoDB, comfortable working across the stack. Based in Manila (UTC+8), available for remote work across Australian, India, EU, and US time zones.

WORK EXPERIENCE

Front End Engineer

Alchemist Accelerator (San Francisco, California, USA)
August 2020 – June 2026

- Used React, Reactstrap and SCSS to create and style reusable components.
- Used Context API, React Hooks, Redux and Redux Saga to reduce prop drilling, manage state and handle asynchronous API calls.
- Utilized GitHub Copilot and ChatGPT to build plans and generate code to ship bug fixes and features more efficiently.
- Scoped bug tickets. Collaborated closely with the product manager, designer, QA engineer and backend developers.

Advanced CSS Developer (Freelance)

Point Hacks (Sydney, Australia)
September 2019 – April 2020

- Handled front end tasks in a WordPress media website using PHP.
- Cleaned up unused styles. Reduced their SCSS styles by 11%.
- Investigated and fixed issues in VueJS apps.

App Developer (Freelance)

Digital First (Sydney, Australia)
July 2019 – April 2020

- Translated UI designs and implemented features of a web app using React, Material UI and Styled-Components.
- Handled back end tasks, specifically creating AWS Lambda functions that execute MySQL queries in a Node.js codebase.
- Participated in regular code reviews with the lead developer, applying feedback to improve code quality.

Front End Developer

SchoolApply (Sweden)
February 2018 – December 2018

- Translated UI designs into responsive web pages using HTML5, SCSS, Bootstrap 4 and jQuery.
- Used Google Lighthouse to audit web accessibility and target 100% accessibility scores, implementing semantic HTML and accessible markup to improve usability for all users.

SKILLS
